Science Link is a network between leading research facilities of photon and neutron sources and their users. The project aims to support and encourage innovation and entrepreneurship in the Baltic Sea Region. Apart from the research facilities, the network also includes scientific institutes, universities and regional organisations that serve as service and promoting units. Science Link is part-financed by the European Union (Baltic Sea Region program) and involves 17 partners from 8 countries during the project period 2012 to 2014.
